Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE

BOTANICAL GAZETTE

EDITORS:

JOHN M. COULTER, Wabash College, Crawfordsville, Ind.
CHARLES R. BARNES, Purdue University, Lafayette, Ind.
J. C. ARTHUR, N. Y. Agric. Exp. Sta., Geneva, N. Y.

VOLUME XI

1886
CRAWFORDSVILLE, INDIANA
PUBLISHED BY THE EDITORS.

PRESS OF
CARLON & HOLLENBECK
INDIANAPOLIS, IND.

TABLE OF CONTENTS.

Asa Gray (portrait) . . . . *Charles R. Barnes.* 1
Birthday Congratulations 6
Pollen-spores of Tradescantia Virginica (plate I)
J. M. Coulter and *J. N. Rose.* 10
A new larval Entomophthora (plate II) . *J. C. Arthur.* 14
Some Arctic grasses (plate III) . . *F. Lamson Scribner.* 25
The Life and Labors of Linnæus. . . *A. P. Morgan.* 26
Notes on the flora of eastern Virginia. . *Lester F. Ward.* 32
Development of the root in Botrychium ternatum (plate IV)
Douglas H. Campbell. 49
On some recent notes and descriptions of Eriogoneæ in Proceedings of the California Academy of Sciences
C. C. Parry. 54
Botanizing in Texas . . . . *J. Reverchon.* 56, 211
Mildews of Indiana . . . . . *J. N. Rose.* 60
Edward Tuckerman—
I. Biographical Sketch . . . *Prof. Goodell.* 73
II. Bibliographical Sketch . . . *Henry Willey.* 74
Revision of North American Hypericaceæ
John M. Coulter. 78, 106
Origin of the flora of Indiana . . *Harvey Thomson.* 88
Scribneria, gen. nov. (plate V) . . . *E. Hackel.* 105
A trip to Willoughby Lake, Vt. . . *Walter Deane.* 112
Specimens and specimen-making.
J. D. Smith, I. C. Martindale, J. W. Chickering, C. E. Bessey, A. W. Chapman, R. I. Cratty, J. J. Davis, C. E. Smith, Gerald McCarthy. 129

How to collect certain plants (Ill.) 135

Cactuses. . . *Geo. Engelmann*
Willows. . . . *M. S. Bebb*
Carices . . . *L. H. Bailey, Jr.*
Grasses . . . . *F. L. Scribner*
Aquatics *Thomas Morong, E. J. Hill*
Mosses . *E. A. Rau, Clara E. Cummings*
Charas . . . *Timothy F. Allen*
Lichens. . . . *F. L. Sargent*
Fleshy fungi. . . *A. P. Morgan*
" " *C. H. Peck, H. W. Ravenel*
Parasitic fungi . . *A. B. Seymour*
" " . *E. W. D. Holway*
Marine algæ . . *A. B. Hervey*
Fresh water algæ . *Francis Wolle*
Desmids . . . *Eloise Butler*
Nostocs. . . . *W. G. Farlow*
Slime moulds . . *Geo. A. Rex*
Bacteria . . *William Trelease*
Yeasts . . . *W. G. Farlow*

The Gray Herbarium of Harvard University, (Ill.) *Charles R. Barnes.* 151

The National Herbarium at Washington . *George Vasey.* 153

The genus Asimina . . . . . *Asa Gray.* 161

Revision of North American species of Nuphar (plate VI) *Thomas Morong.* 164

Grasses of Yellowstone National Park. I. *F. L. Scribner* and *Frank Tweedy.* 169

Outline for study of chemical botany . *Lillie J. Martin.* 178

The flora of our southwestern archipelago. *Wm. S. Lyon.* 157, 330

Structure and distribution of the resin-passages of white pine (plate VII) . . . . . *Etta L. Knowles.* 206

Notes on Campanula Medium . . *Bolling W. Barton.* 208

Botany at the American Association 221

Botanical Club of the American Association . . . 224

Entertainment of the Botanists at Buffalo 229

Essay toward a revision of Dodecatheon . . *Asa Gray.* 231

The Development of the Gymnosporangia of the United States . . . . . *W. G. Farlow.* 234

The theory of immunity from contagious diseases. *D. E. Salmon.* 241

Memoranda of a revision of North American Violets. *Asa Gray.* 253, 289

Synopsis of North American pines, based on leaf anatomy (plate VIII) . *John M. Coulter* and *J. N. Rose.* 256, 302

Notes on the mode of pollination of Asclepias (plate VIII) *Charles Robertson.* 262

Certain chemical constituents of plants considered in relation to their morphology and evolution *Helen C. DeS. Abbott.* 270

The relative value of cultures in liquid and solid media in the diagnoses of bacteria . . . *Theobald Smith.* 294
Botanical character of the black rot, Physalospora Bidwellii, SACC. (plate IX) . . . *F. Lamson Scribner.* 297
The bulliform or hygroscopic cells of grasses and sedges compared (plate X) . . . . . *W. J. Beal.* 321
Hierochloa borealis . . . . . *Walter Deane.* 326
Notes on Carex.—VIII.—Hybrids (plate XI) *L. H. Bailey, Jr.* 328

BRIEFER ARTICLES—

Anemone nudicaulis n. sp. . . . . *Asa Gray.* 17
Dispersion of some tree seeds . . . . . *W. J. Beal.* 17
Anemonella thalictroides . . . . . *Asa Gray.* 39
Edmond Boissier . . . . . *J. M. Coulter.* 39
Sections of native woods 40
The tumble weed of the west . . . . . *C. E. Bessey.* 41
Aspidium Oreopteris Swz. . . . . *T. J. W. Burgess.* 63
A cheap camera 63
J. R. Lowrie . . . . . *T. C. Porter.* 64
Primula Cusickiana Gray . . . . . *J. M. Coulter.* 91
On the citation of authorities . . . . . *Geo. Bentham.* 91
Thalictrum . . . . . *Wm. Trelease.* 92
The brothers Tulasne . . . . . *W. G. Farlow.* 93
The grasses of Coulter's Manual . . . . *F. Lamson Scribner.* 95
Notes on Eatonia . . . . . *George Vasey.* 116
On the characters of species in Cacti . . . . *Thos. Meehan.* 117
Herbarium notes in back numbers 156
Mounting delicate plants . . . . . *A. B. Seymour.* 156
Liquid fish glue . . . . . *A. B. Seymour.* 157
Disposition of thick specimens . . *Wm. Trelease, C. E. Bessey.* 157
Calochortus Obispoensis, n. sp. . . . . *J. G. Lemmon.* 180
A rare fern . . . . . *L. G. Yates.* 181
William S. Clark, Ph. D. . . . . *S. T. Maynard.* 181
Tuckerman bibliography . . . . . *Henry Willey.* 182
Vancouveria . . . . . *Asa Gray.* 182
How to make pockets (Ill.) . . . . . *C. R. Barnes.* 183
A botanical diary . . . . . *E. J. Hill.* 183
Collecting fossil plants . . . . . *F. L. Harvey.* 184
Drying plants out of doors in wet weather . . . *John Macoun.* 185
Herbarium cases (Ill.) . . . . *C. E. Bessey, Wm. Trelease.* 186
Corydalis aurea and its allies . . . . . *Asa Gray.* 188
Development of Rœsteliæ from Gymnosporangia . . *W. G. Farlow.* 189
The Arillus in Asimina . . . . . *Asa Gray.* 190
Gymnosporangium macropus on Pyrus coronaria . . *B. D. Halsted.* 190
Notes on Arisæma triphyllum. . . . . *Thomas Meehan.* 217
Dr. Gray's letter to the botanical club . . . . . *Asa Gray.* 245
Orange-leaf scab . . . . . *F. Lamson Scribner.* 246
Expulsion of seeds of Sporobolus cryptandrus (Ill.) . *W. J. Beal.* 247
The biology of timber trees with special reference to the requirements of forestry. . . . . *B. E. Fernow.* 247
An interesting Peronospora (plate VIII.) . . . *B. D. Halsted.* 272
John Goldie, gardener and botanist 272
Desmodium molle DC. . . . . *John Donnell Smith.* 274

BRIEFER ARTICLES—*Continued*—

Testa of the seeds of Phytolacca (plate VIII.) . . *Chas. U. Stockbarger.* 274
Some notes on Hypericum . . . . *John M. Coulter.* 275
How the humble bee obtains nectar from Physostegia Virginiana. *J. Schneck.* 276
Home-made bacteria apparatus (Ill.) . . . . *T. J. Burrill.* 276
A case in teratology . . . . . *A. A. Crozier.* 309
Puccinia Malvacearum in Massachusetts . . . *W. G. Farlow.* 309
Making drawings with a dissecting microscope (Ill.) . *F. L. Scribner.* 310
Plan for laboratory work in chemical botany (Ill.) . *Lillie J. Martin.* 311
Some additions to the sylva of North America . *Chas. S. Sargent.* 313
New Grasses . . . . . *George Vasey.* 337
Ambrosia bidentata × trifida. . . . . *Asa Gray.* 338
Selinum Canadense in Indiana . . . . . *J. N. Rose.* 338
Dr. George Martin . . . . . *J. T. Rothrock.* 338
Two new Californian plants . . . . . *Volney Rattan.* 338
A pleasing experiment in laboratory practice . *Byron D. Halsted.* 339
Alaskan plants . . . . . *F. H. Knowlton.* 340

EDITORIAL 18, 41, 65, 97, 118, 157, 191, 248, 279, 315, 340

The BOTANICAL GAZETTE.—Plant fashions and botany.—Treatment of exsiccatæ.—Citation of authorities.—Endowment for botanical research.—Literature of subjects investigated.—The sketches of Dr. Asa Gray.—The GAZETTE for June.—The portrait of Dr. Asa Gray.—The GAZETTE for June.—Botany in America.—Citation of authorities and generic names.—The Bulletin of the Torrey Botanical Club.—Dates of publication of the GAZETTE for 1885.—Distribution of author's extras.—Buffalo meeting of the A. A. A. S.—Botany at the Agricultural Department.—Forestry work of the Agricultural Department.—The herbarium number.—Exchanging.—Collecting.—The sketch of Dr. Engelmann in Popular Science Monthly.—The Botanical Club of the A. A. A. S.—Organization and work of botanists.—Expansion in the Agricultural Department.—A botanical section of the A. A. A. S.—Reports from Agricultural Experiment stations.—Physiological botany in America.—Value of botanical contributions.—Botanical activity.—Recognition of American work.

OPEN LETTERS 20, 43, 67, 98, 120, 192, 250, 281, 316, 341

Seeds wanted. . . . *Asa Gray*
The dispensatories . . "*R.*"
A Phallus . . . *M. B. Flint*
The Agricultural department. "*S. N. T.*"
Some variations . *J. Franklin Collins*
Botany at Harvard . *W. G. Farlow*
Reverchon's Texan ferns. *Geo. E. Davenport*
Glue for the herbarium. *W. W. Bailey*
De profundis . . . *W. W. Bailey*
Hypnum Barberi. *Clara E. Cummings*
Dispersion of tree-seeds. . *J. Vroom*
Tumble-weeds . . . *Quisquis*
Nasturtium lacustre *L. H. Bailey, Jr.*
A double orange . . *Jos. F. James*
Arrangement of herbarium. *W. J. Beal*
Tamarack in Indiana *Harvey Thomson*
Fertilization of Campanula. *C. R. Barnes*
Seeds of Mentzelia . *J. M. Coulter*
Liquid glue . . . *J. H. Oyster*
Concerning labels. . *W. W. Bailey*
Arrangement of herbaria *Wm. Trelease, W. W. Bailey, F. H. Knowlton*
Corrections, and a dredge *Thos. Morong*
Exotics in the herbarium *W. W. Bailey*
Books of reference . *C. E. Bessey*
Herbarium for sale . *W. W. Bailey*
Carices wanted . *L. H. Bailey, Jr.*
Drying plants . *T. J. W. Burgess*
Collection of exotics *F. H. Knowlton*
Sinteni's Puerto-Rico plants *Ign. Urban*
Spores of Pilobolus . *W. J. Beal*
Viola tricolor, var. arvensis. *Thos. P. Hart*
Vegetable substances within animal tissues . . . *A. W. Brayton*
Letter to Botanical Club *N. J. Colman*
Second blooming of Salix humilis. *Oliver A. Farwell*
Orientation of cassia leaflets. *W. W. Bailey*
Eupatorium perfoliatum. *J. Franklin Collins*
